Eliminate the Menace Permanently.

Evidently there are a few persons driving cars in Edmonton who are not nearly enough, or womanly enough, to face the consequences when they become involved in street accidents, or even to stop and give what assistance they can to their victims.

The hit-and-run driver is a sneak. He is worse than that, but that is as far as it is necessary to analyze his character to show that he is a menace to society and should be promptly and permanently deprived of the opportunity to kill and maim people, and to smash cars, on the public highways.

Once identified, a driver who runs away from an "accident" should never be allowed to drive a car again in the Province of Alberta; not to leave the Province until he has paid the last cent assessable for the damage he has done to person or property.

Smuggling Still.

Thirteen people are dead in Ontario and others are blind because they drank poisoned liquor smuggled into that province from the Michigan Government and past the sleuths by whom Hon. H. H. Stevens was going to make the international border impervious to free trade whisky.

To give the credit due to an undeserving traitor, Mass. A. H. Stevens, for letting the duty-free poison under cover of a false pretense, it was liquor.

Nor were the officials under Hon. G. H. Hoivn charged with responsibility for letting the murder get past them without collecting duty on the thing to say to a Minister should prohibit smuggling and another thing to do it.

Nobody in his senses will blame the Meighen Government or Hon. H. H. Stevens for this deadly connection spread across the border.

But nobody who is not deranged by prejudice can refuse to see in the assurance proof that it is the thing to say to a Minister should prohibit smuggling and another thing to do it.

All Eyes on the West.

The eyes of all Canada are fixed on the Western crop.

The West no longer wants for recognition of its national importance at that season when people all over Canada scan the crop reports to find out how much wheat the West is likely to have to sell in the fall.

The national tributes to the value of the Western crop is highly gratifying to people in the prairie provinces; none the less so because it is no more than the admission of an established fact. It would be still more gratifying to the West if people elsewhere in Canada would study the political situation for a chance to help speed up western development as carefully as they study the crop situation to find out how much the existing amount of development is likely to help them.

The Western crop is admitted to be the biggest factor in making conditions favorable or otherwise in the other six provinces of Canada. How comes it such a large proportion of the people in those provinces cannot seem to stimulate Western development would multiply the benefits they get from it.

Europe "Clings" In War Debts.

Europe, it is said, has at last found a bond of unity—in the common "hated" of European people for the United States.

Hated is a strong term. It is to be hoped that it is altogether too strong. It describes a state of mind that is usually the result of long-cherished dislike, and commonly cultivated by breeding over wrongs real or imaginary.

That the United States is unpopular in Europe is not to be doubted. It is unpopular for the reason that a creditor is always unpopular when he invites debtors to pay bills which they hoped to be forgiven or to have substantially discounted.

Europe has deluded itself with the notion that the United States could never collect the war debts which the nations of the old continent owe at Washington; or that these debts would be cut down because the United States would the end of the war made common cause with the borrowers.

There was never any solid reason for supposing that the United States had any intention of writing off these debts, or of discounting them in any serious way. Washington never gave any undertaking to that effect nor encouraged the supposition.

The hatred which Europe is said to have developed for the United States grew out of its own expectations of a favor which it had no real war to expect. It is the result of any action of the United States in going back on an agreement or failing to keep a promise.

Hated is none the less better because it is self-generated. Quite commonly it is the result of the fruit of hopes which were never encouraged.

One thing is plain. Europe's display of temper has killed any chance of the United States war debts would be either cancelled or discounted. The United States could not, in face of that outbreak, either write off the debts or reduce them without a sacrifice of dignity which would almost certainly be construed as fear.

Whatever might have occurred under other circumstances, Europe will now have to pay in the last dollar. Kicking a man when he is down is the last and poorest way to persuade him to recognize a moral claim in leniency.

Just Folks

by Edgar A. Guest

DEMIAN

Oh, some men say, whose hair is grey, that time has come when they should be grey.

The flesh will be more bare the breast of grimes that used to be.

They will be sick as youth once by and on its pleasure from.

But still my dear folks, allow the little boy in me And wait a while for feeling better or feeling of the knee?

If strength must be as time goes by then let the strength be strong.

The flesh will be more bare the breast of grimes that used to be.

They will be sick as youth once by and on its pleasure from.

But still my dear folks, allow the little boy in me And wait a while for feeling better or feeling of the knee?

If strength must be as time goes by then let the strength be strong.

The flesh will be more bare the breast of grimes that used to be.

They will be sick as youth once by and on its pleasure from.

But still my dear folks, allow the little boy in me And wait a while for feeling better or feeling of the knee?

If strength must be as time goes by then let the strength be strong.

The flesh will be more bare the breast of grimes that used to be.

They will be sick as youth once by and on its pleasure from.

But still my dear folks, allow the little boy in me And wait a while for feeling better or feeling of the knee?

If strength must be as time goes by then let the strength be strong.

The flesh will be more bare the breast of grimes that used to be.

They will be sick as youth once by and on its pleasure from.

But still my dear folks, allow the little boy in me And wait a while for feeling better or feeling of the knee?

If strength must be as time goes by then let the strength be strong.

The flesh will be more bare the breast of grimes that used to be.

They will be sick as youth once by and on its pleasure from.

But still my dear folks, allow the little boy in me And wait a while for feeling better or feeling of the knee?

When Seeing is Believing

We particularly wish to discourage any idea that this is an Ordinary Second-hand Store or Auction Room in any sense. It is not. We are responsible for placing the Second-hand Furniture Business in Edmonton on the plane it enjoys today.

OUR policy from the first has been to offer the public of Edmonton better Furniture values than they could buy elsewhere. That we have been able to do this is proven by the hundreds of city homes that have come to us for complete or partial furnishings. The reasons for this are—our ability to buy in large quantities direct from the manufacturers or from local wholesale stocks that have been overbought, that won't move until we move them at our own price, which also becomes your benefit. The location of our store enables us to sell for lower prices, because of low rent and low cost of conducting business.

Wonderful Chesterfield Values

Forty to Choose From

A wonderful selection of complete suites, in a variety of designs in 1925 patterns. Coverings of tapestry, mohair, velours. Any home that is not yet furnished with this greatest comfort that the living room can afford should not be without one any longer than today. Every one guaranteed in construction and covering materials.

WE WELCOME AN OPPORTUNITY TO COMPARE OUR VALUES AND PRICES

"OIL FOR PROFIT!"

Never was there a business so attractive to investors from all standpoints

"THE OIL BUSINESS"—that is, the production, refining and marketing of petroleum, is in numerous ways, the most remarkable industry in existence today. Just consider these points:

—One of the world's greatest fortunes was built from the oil industry, and that was before the present universal and growing demand for gasoline and kindred products came into existence.

—The development of the gasoline engine, and the remarkable scope of its application to pleasure as well as industry, has made the demand for petroleum products an imperative one. So much so that the business of the world would be paralyzed should the supply be suddenly cut off.

BECAUSE of this situation and the vista of useful business opening up for petroleum, the really big business of oil is merely in its infancy. The producer of oil and gasoline today is in the unique situation of finding an urgent and generous market for his product.

The demand and production of oil is doubling and trebling upon itself every year. The indications are that this ratio will be greatly increased in the future.

—"The oil business" is practically a "cash business" with no bad accounts.

The refining and marketing end of the business offers a certain and substantial margin of profit. It is an industry upon a sound and firm basis, for the products of oil are an economic necessity.

FOR these reasons the "oil business" is the most attractive and profitable among the industries, and the one which has been, without exception, the most successful.

Because the world is but on the threshold of the era of oil, and the business of production is in its infancy, the present offer to participate in the Refineries Distributors Company, is a "ground floor" opportunity not only in the company but in the industry.

Consider the proposition offered here to purchase preference shares in this company at par, and in addition, to receive a share of common stock as bonus. Look well into the proposition as outlined on this page. Get out your pencil. Figure—consider—act!

These Shares are selling fast. There is but one allotment offered with bonus of common. Do not delay too long. Act now!

+Cracking Plant For Treating Alberta Crude

Prof. Gustav Egloff of the University of Alberta, in a lecture before the American Institute of Mining and Metallurgical Engineers, spoke emphatically upon the wonderful economy and value of the "Cracking Plant" in the production of high grade antiknock gasoline from crude oil.

He claimed, and showed by tests and actual production in many fields, that by the Dubbs process, from 50 to 70 per cent gasoline is extracted from the crude and showed that from the Kertin-Summit crude this percentage is always obtainable. The heavier crude from the Snack-over field is mentioned as showing "the wonderful potentialities of this process."

One of the wonder oil fields of the United States is the Snack-over Arkansas, which is still producing 150,000 barrels per day, of which 161,000 barrels (December 31, 1925) is heavy oil. This oil, of asphaltic characteristics, is not very satisfactory as a fuel oil due to its considerable water, high sulphur contents and other properties.

The general inquiry when a new Snack-over well was brought in "What will they do with it after they get it?"

"One leading oil man stated that Snack-over 'Heavy crude' had everything in it it should not have for a refinery. Yet, despite these pessimistic statements, Snack-over heavy oil is being commercially cracked into over 50% gasoline. Snack-over heavy crude oil production of 163,000 barrels daily can be converted into 81,500 barrels of gasoline per day by the cracking process."

The results achieved through these which will be accomplished by the Cracking Plant in treating the crude oil from the Wainwright field, as the chemical composition and gravity of the oils are almost identical.

The Dubbs Process is so flexible that it converts any type of oil without change of principles or equipment into gasoline. Commercial plants are in operation or under course of construction in various parts of the world, such as Japan, Mexico, Java, and Dutch West Indies, Australia, Hungary and many parts of the United States.

Refineries Distributors Limited

208 McLEOD BUILDING, EDMONTON, ALBERTA

Capitalization ~ \$1,000,000

90,000 Shares, Preferred, \$10 Par

100,000 " Common, \$1 "

Present Offering: The balance of a Block of 30,000 Preferred Shares at Par each Preferred Share carrying a Bonus of One Common Share.

DIRECTORS:

JOHN L. MERCER, Edmonton, Alberta, President.
H. A. STEWART, Vancouver B.C.,
Vice-President and Managing Director.
M. C. HAMMOND, Edmonton, Alberta.

J. C. C. BREMNER, Clover Bar, Alberta.
ROBERT McDONALD, Edmonton, Alberta.
W. A. TRIMBLE, Edmonton, Alberta, Secretary-Treasurer.

REFINERIES Distributors Ltd. was organized with a Dominion Charter, capitalized at \$1,000,000, divided into 90,000 8% Preference Shares with a par value of \$10.00 each; and 100,000 Common Shares with a par value of \$1.00 each. Paid up capital is \$200,000.

The company was organized to market the "PEP" products of the Albert Refineries Ltd., and also to produce gasoline and other products from crude petroleum by means of a cracking plant, this plant employing the Dubbs process, a great scientific and economic advance over the ordinary refining plant, extracting from 3 to 5 times as much gasoline from the crude oil.

The present issue, for the purpose of carrying on the immediate program of the company, is 30,000 Preference Shares, of which 10,000 shares have already been sold. The Preference Shares are offered in units of 1 at par \$10.00, and each of these Preference shares carries a bonus of 1 Common Share.

The initial program of the company is to erect and maintain a number of Service Stations throughout the Province for the marketing of "PEP" gasoline and petroleum products, a profit of 3c per gallon clear of

freight being available from this source alone at the present market prices.

Also to erect a "Cracking Plant" at a cost of \$150,000. This will have a capacity of 1,000 bbls. of crude oil and will produce from this a minimum of 500 bbls. of antiknock gasoline every twenty-four hours. At 25 gallons to the barrel, this shows a total output of 17,500 gallons a day.

Apart from the individual profit of the cracking plant and working at capacity, the output marketed through the service stations shows a distributing profit of \$525.00 per day net. This alone will show a handsome dividend on a \$1,000,000.00 capitalization in addition to the 8% per annum on the preferred shares.

Detailed figures will show this enterprise to be one of the very highest potentialities for profit. We shall be pleased to send a digest of the situation, based upon actual conditions, to the earnest investor.

In the meantime the soundness of the proposition will appeal to the investor who realizes that these pioneer enterprises in industry based directly upon natural resources, reap the rich reward.

Marketing Company Has Contract with Refinery

Refineries Distributors Ltd., the marketing company, have a contract from the refining company which guarantees the marketing company 10c per gallon clear of freight delivered at distributing points throughout the country. That is to say under tank wagon loads at these points. We shall pay a 1% commission and estimate a further 1% for office and overhead, leaving us 9c per gallon, thus profit to the marketing company.

As an example, if the income to be derived from this source, figuring on the basis of 1000 barrels per day, (imagined, but of course would be fulfilled, having 200 barrels per day for distribution by the marketing company, 600x30 equals 17,500 gals x 9c per gal. equals \$1575.00 per day net profit or \$164,250.00 net profit per year. The amount of oil can be distributed by ten bulk stations, and strictly we have more than this number established at a cost of \$100,000.

We have had to refuse many orders for products from other points, thus the need for expansion. In addition to this source of revenue the marketing company will build a cracking plant that will give us an additional 17,500 gals. per day of straight gasoline, using Wainwright crude.

The Company is fortunate in having secured as General Superintendent of the plant, Mr. M. L. Berryman, formerly Chief Chemist and General Superintendent of some of the principal plants in the South, such as the Gulf Refining Co., The Texas Company, Magnolia Petroleum Co., and others. He was one of the first men in charge of a cracking plant, using the Dubbs Process, and his experience has been such that he will be able to operate the refining and cracking plants economically, thus the selling price advantage. He is a highly capable executive. His name and qualifications are given on the enclosed prospectus.

SPORTS

CARSON MACWILLIAMS REMAINS IN RUNNING FOR AMATEUR TITLE OF WESTERN CANADA GOLF MEET

Igaray Man Shoots Great Golf to Eliminate Two Contenders on Thursday—Ross Somerville, Jack Cuthbert and Don Carrick Also Weather Round

Edmonton, July 29.—(Edmonton Press.)—The Western Canadian Amateur Golf Championship, which is being held at the University of Alberta, was continued today with the second round of play. Carson MacWilliams, who has been in the lead since the first round, was again in the lead today, finishing with a score of 74, which put him 10 strokes ahead of the next player, Ross Somerville, who finished with a score of 84. Jack Cuthbert and Don Carrick also played well, finishing with scores of 80 and 82 respectively.

MacWilliams, who is a professional golfer, has been in the lead since the first round, when he finished with a score of 72. He is a very strong player and has been in the lead in many of the tournaments he has played. He is a very consistent player and has been in the lead in many of the tournaments he has played. He is a very consistent player and has been in the lead in many of the tournaments he has played.
